

Audit Trail

WHAT IS AUDIT TRAIL?

The qulu Audit Trail feature allows System Administrators to view all actions carried out by users in the system in a single dialog. The Audit Trail feature is useful in investigations by System Administrators into potential system abuse by System users.

To access and use Audit Trail

- Login to your system as an Administrator.
- Click the Main Menu button and select Audit Trail.

Continued on next page

• Apply filters and keywords to search the system's records.
