

VIPER: How to Set HDAL – HDA DVRs to Hybrid Mode

INTRODUCTION

The following Procedure explains how to set VIPER HDAL and VIPER HDA DVRs to Hybrid Mode.

Note.

The VIPER DVR Recorders can be set to accept up to 25% of their inputs to IP [max resolution 1920x1080]

Method

- Right click on screen with mouse, Menu appears then left click [Log In] enter admins user and password to login (Fig 1)
- Right-click in live screen select [Setup] (Fig 2)
- System Menu displayed Click [Run] this will run "Easy Installation" wizard (Fig 3)
 - Step 1. "Account" Click [Next] will see a "Password is too weak" prompt if default / poor password has been to used click [OK] to ignore and proceed
 - o Step 2. "System" (Fig 4)
